# 8-FOOT *Style-Curve*

Two distinguished display hits, each 8 feet high! Each is made of heavy fiber board that gives strength and permanence. 8-Foot GIANT-CURVE, with 4" precision-molded flutes, is the top choice for fine displays. And now a new member, 8-Foot STYLE-CURVE, joins it in popularity! It has the same great height and strength of Giant-Curve, plus a new, stylish surface . . . bold, 2" inverted flutings. Both are available in 9½-foot continuous rolls . . . are perfect for windows and interiors that require tall, graceful backgrounds . . . with Style-Curve also available in the versatile 36" panel width. Both are self-standing . . . roll quickly and easily into place, saving precious time and labor. For style, speed and beauty try the 8-foot display hits—GIANT-CURVE and STYLE-CURVE.

**MAKE CLASSIC COLUMNS  
WITH THESE BEAUTIFUL**

## DORIC CAPS

Sturdy columns in the classic Grecian manner are quickly made by using these well styled caps together with Nu-Curve, Giant-Curve or Style-Curve. They look like plaster or wood formed units, with soft, satiny finish that can be used in natural white or air-brushed to match special colors. Make columns up to 8½' high. Caps have simplified one-piece construction with both inner and outer sections in one piece. Can be used over and over again. Two sizes, two types. Sold in complete sets, including 1 top and 1 bottom cap unit:

**DC-1201 DORIC CAPS:** For use with Nu-Curve or Style-Curve to make 12" diameter columns.

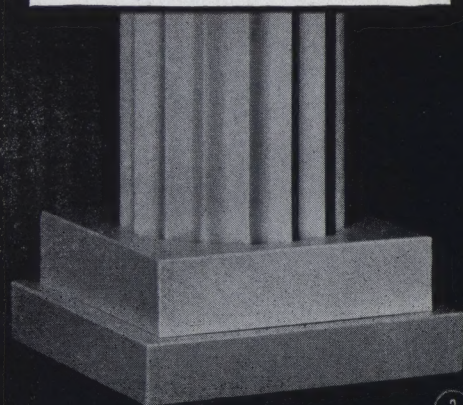

Per set . . . . . **\$3.25**

**DC-1202 DORIC CAPS:** A new, simplified design, with single step on top cap, and without inner sections. For use with Style-Curve. Make 12" diameter columns. (Sold only in cartons containing 2 sets.)

Per set . . . . . **\$2.25**

**DC-1601 DORIC CAPS:** For use with Giant-Curve to make 16" diameter columns. Per set . . . **\$3.95**

*Photograph shows Doric Caps used with new 8-foot STYLE-CURVE. Note the grace of the new 2" inverted flutings.*

# Corrodek

**NEWLY IMPROVED for GREATER VALUE**

Now, new improvements in manufacturing processes, paper and adhesives make Corrodek the ideal material for wartime displays. It is rigid, non-sagging . . . makes smooth settings. Its color goes through and through, for greater permanence. It's so durable that displays will stay attractive for longer periods. Easy to use . . . a man-saver for overworked staffs!

## CHECK THESE ADVANTAGES:

**THE IDEAL CONSTRUCTION MATERIAL**—Corrodek rolls freely around walls, posts, and other display structures. And by scoring, or "cross-cutting," the tops of corrugations, it can be made into fully rigid panels to stand erect with corrugations horizontal.

**THREE-DIMENSIONAL EFFECTS**—a wide, beautiful range of tonal effects from highlights to shadows.

**EXTRA HEIGHT**

**EXTRA STRENGTH** to support its great height.

**UNIFORM CORRUGATIONS**

**NO FINGER MARKINGS** to mar beauty.

**BEATER COLORED**—not surfaced dyed.

**COMPLETE RANGE OF COLORS**

**CUTTING GUIDES SAVE TIME** The back of each roll has handy half-inch and inch guide lines that eliminate measuring, and make accurate cutting easy. Two sizes of scallops are also marked on the back.

## SPARKLING FROSTED DESIGN

The sparkle of countless tiny stars . . . the brilliance of flashing diamonds . . . that's what Corrodek brings you in its frosted design. Shiny crystal flakes are sprayed over the surface, covering both hills and valleys in the corrugations. Make your windows sparkle with frosted Corrodek!

## Black-Out Corrugated

The quick, safe and economical dim-out and black-out material for stores, offices, factories and homes. Soft-white corrugated inside . . . dull black outside, providing a smooth surface to prevent light leaks. Made of special, heavy stock for long, trouble-free use.

# 72" NU-TRIM

## THE FLEXIBLE CORRUGATED THAT WILL NOT CRUSH

Nu-Trim offers brilliant colors plus flexibility and non-crushability! Folds, creases and bends around corners and sharp edges without breaking. It has the rigidity of corrugated for columns, wall coverings and panels. Novelty decorative effect. Ideal for floorings.

101 White      105 Light Blue      106 Napoleon Blue  
108 Nile Green    109 Emerald Green    111 Canary Yellow  
114 Flame Red      115 Antique Ivory

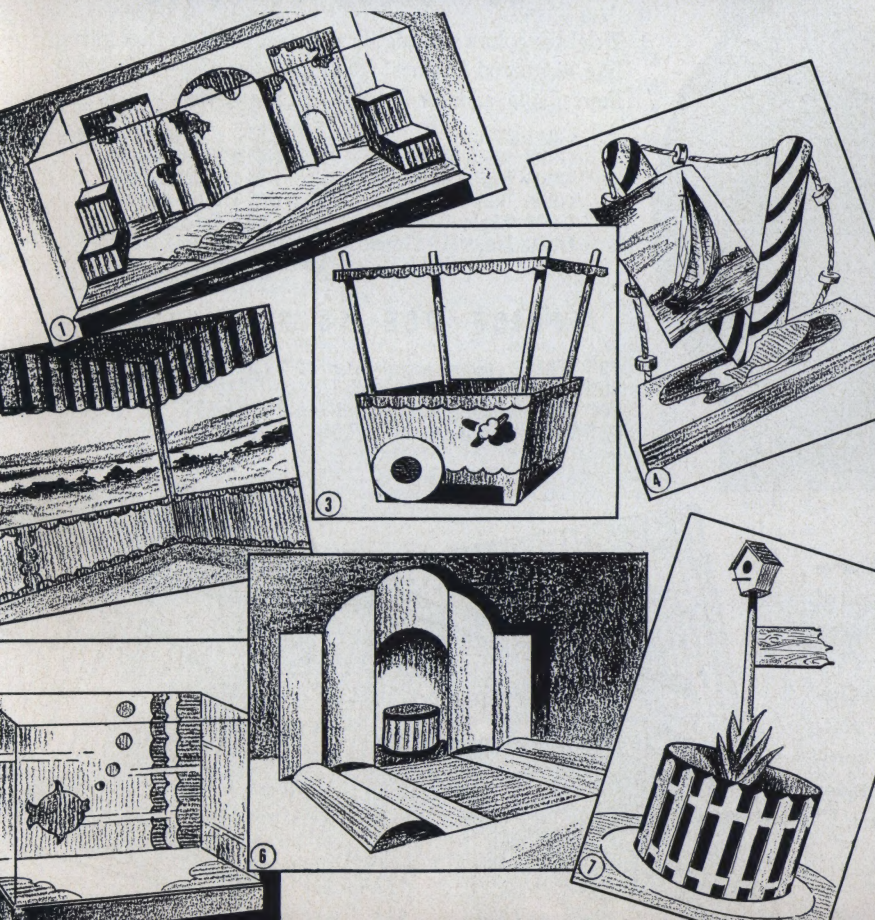

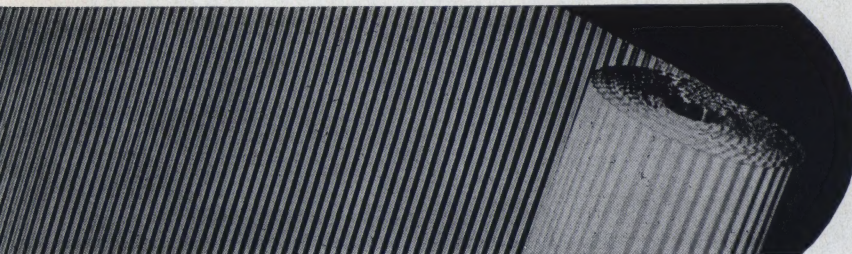

Per 25' roll: 72" wide . \$3.95    48" wide . \$2.75

## METALLIC CORRODEK

Use Metallic Corrodek for brilliant displays! Uniform corrugations . . . 3-dimensional beauty . . . no "finger markings." White bond backing. Per roll 26" x 25':

M431 Silver \$3.95    M432 Gold \$4.75

Corrodek tops the list for all-around usability! It's flexible, yet rigid . . . rolls around display properties, columns and backgrounds . . . self-standing, will not sag. Can be easily cut with shears, yet used like heavy fibre board. Here are a few of its great many uses: (1) Used in showcase for background and display. (2) For bottom, background and for scalloped edging, with Ocean Waves design and Awnings at top. (3) For covering and cut-out trimmings on an island selling display. (4) For covering platforms, for cut-out flooring, with alternate stripes on the posts. Sailing Boat theme. (5) For background, flooring and cut-out design inside showcase. (6) For display set, with shadow box and pedestal. Novelty flooring easily made of Corrodek, curved over semi-circular support. (7) For island display and sign-post, with cut-out picket fence.

# 6-Ft. NU-CURVE

*Classic Beauty  
with Modern Speed*

The beauty of a classic art treasure . . . plus the sturdy construction that permits faster installation and longer lasting displays . . . that's Nu-Curve!

Looks like a column from a Grecian Temple . . . with classic styling that gives charm and dignity to displays! Big, sturdy 1" flutings with the beauty of expensive wood or plaster forms . . . plus the economy and handling ease of a paper-board material.

Extra, 6-foot height provides taller displays without splicing. Cuts and folds without cracking . . . will not buckle or sag.

## 72" SATIN FINISH NU-CURVE

Combines extra height with a satiny, non-reflecting finish. . . . both prime requirements for backgrounds.

# Fibercote

## LEATHERETTES ★ WOODGRAINS

Whether you want a beautifully embossed leatherette in jewel-like colors, or realistic woodgrains, you'll find your choice in Fibercote. It's sturdy, long wearing for every covering need . . . economical . . . waterproof . . . washable . . . greaseproof . . . resistant to practically all stains. Colors are non-fading, even under direct sunlight. It's easy to use . . . marked on the back with one-inch and one-half-inch guide lines for accurate cutting, and with 2 sizes of scallops for convenience in cutting this often-used design.

### THE BEST COVERING FOR LONG WEAR

For counters, shelves, and other selling surfaces that need attractive coverings and must withstand hard usage, use FIBERCOTE. It provides frequent changes of color, and can be washed to remove dirt and grime.

### RICH-LOOKING DISPLAY EFFECTS

The quick way to beautiful background and display properties. Authentic grained leatherettes, realistic woodgrains . . . all so good that they look like the real thing . . . both of heavy fiber stock that won't sag or wrinkle.

### EXTRA WIDE 50" ROLLS

Cover a 48" panel without lamination or fussing . . . simply wrap FIBERCOTE around the panel and fasten in back. Permits easy re-use of both panel and FIBERCOTE.

### 5 WASHABLE WOODGRAINS

They look like real wood because they are manufactured with the accuracy of photographic reproduction. Colors are true to type, processed with durable lacquers. The photographs at the right, (shown one quarter actual size) suggest the beauty and realism of these woodgrains.
